

If you would like to increase your electric power, we need:

- Certificate of electrical installation (must be done with the same name as the current contract).
- Passport or identity card of the contract holder or the representative of the company.
- Signed authorisation of the contract holder if he/she can't come.

New contract price: 36€ (+4,5%)

+ 25€ (+4.5%) for each kW more you need

Important: if your meter does not support the new power and a new meter has to be installed, this will generate an additional invoice of the costs of material and works. In this case we will always inform you in advance.

In order to decrease your electric power, we need:

- Passport or identity card of the contract holder or the representative of the company.
- Signed authorisation of the contract holder if he/she can't come.

New contract price: 36€ + IGI (4,5%)

Important: if your meter does not support the new power and a new meter has to be installed, this will generate an additional invoice of the costs of material and works. In this case we will always inform you in advance.
